# COVID-19: summary for Florida

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

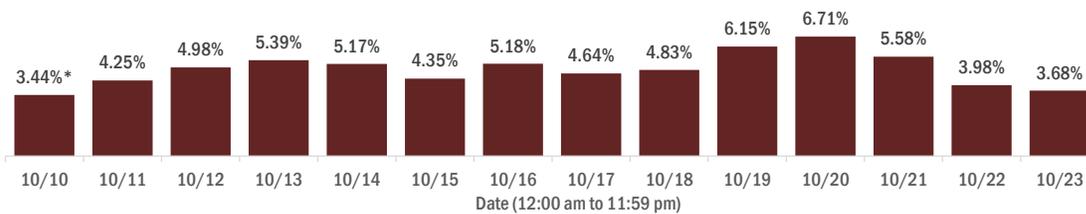

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

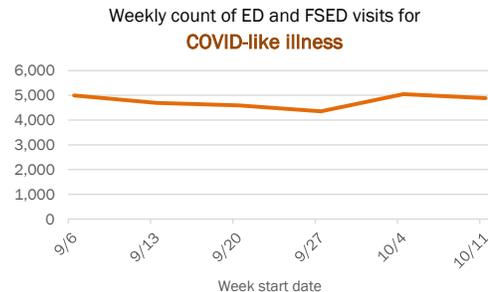

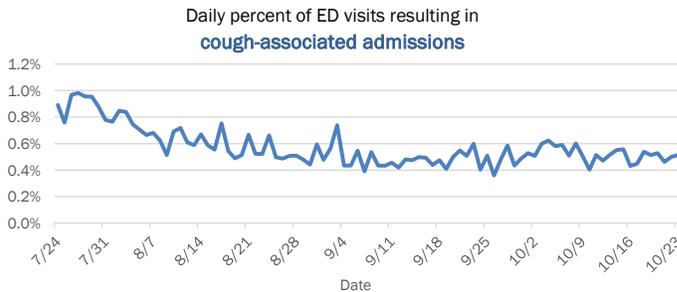

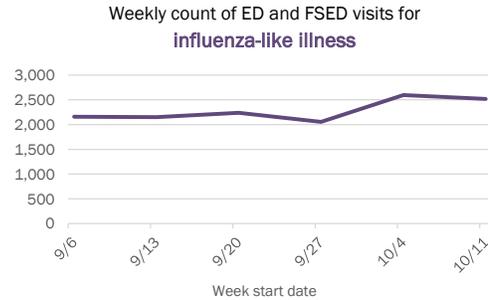

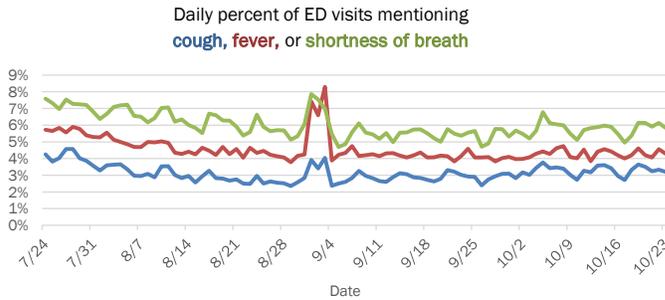

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 3.44%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Florida County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

## Laboratory testing for Florida residents over the past 2 weeks

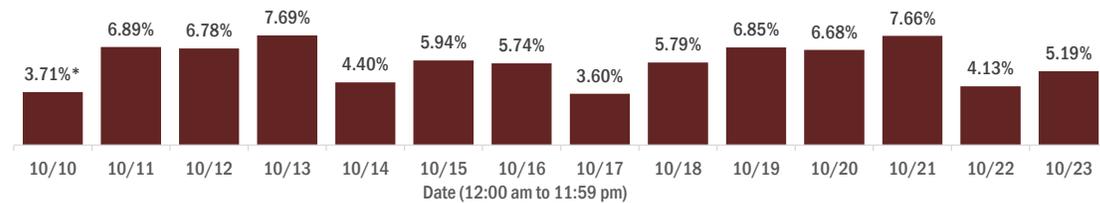

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

### Percent positivity for new cases in Florida residents

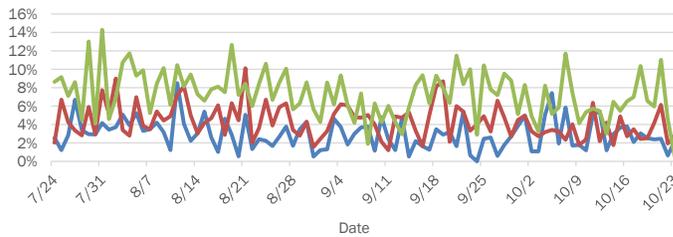

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 4.33%

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

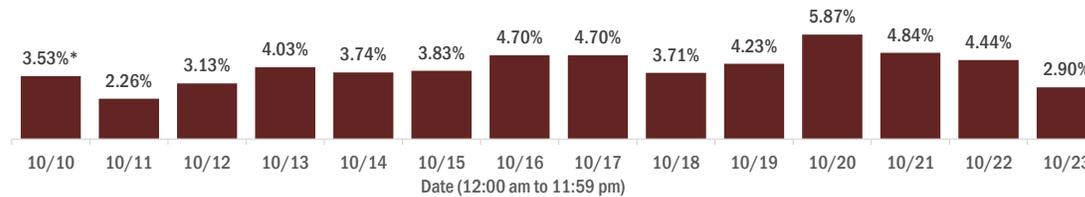

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

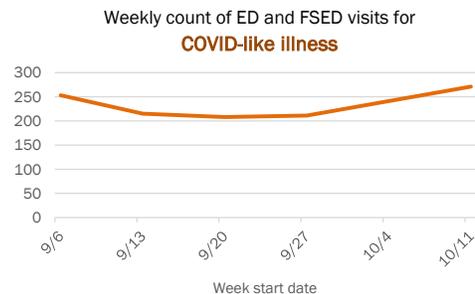

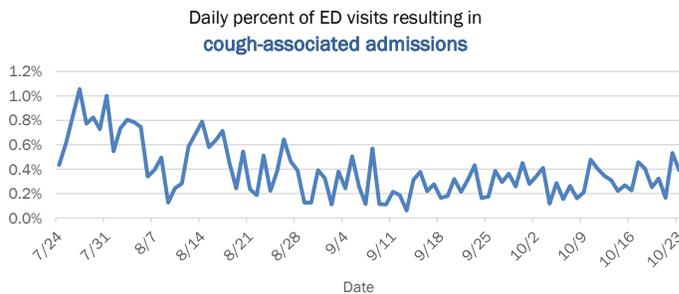

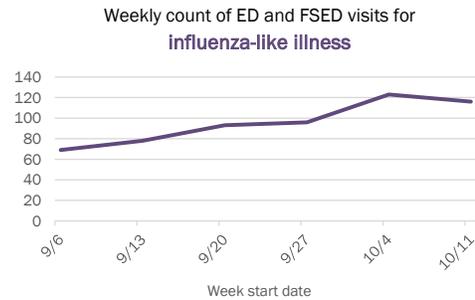

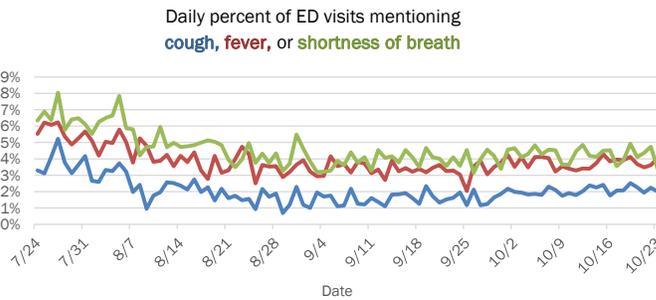

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 5.41%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Clay County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

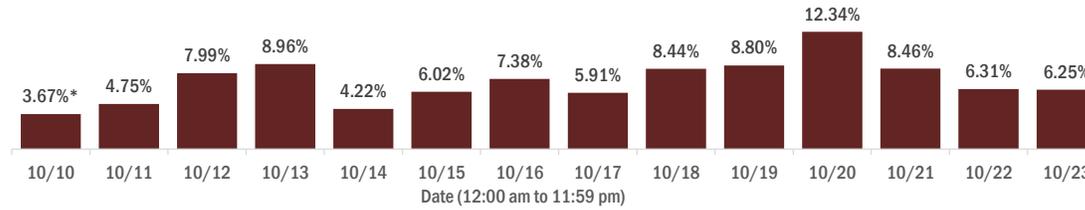

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

### Percent positivity for new cases in Florida residents

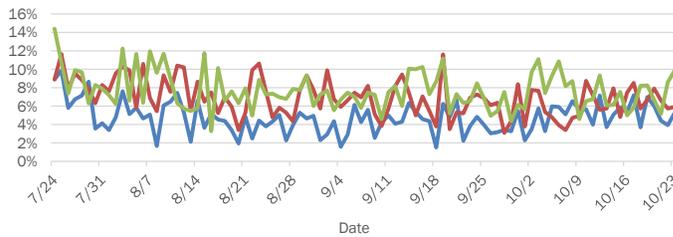

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 2.38%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Dixie County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

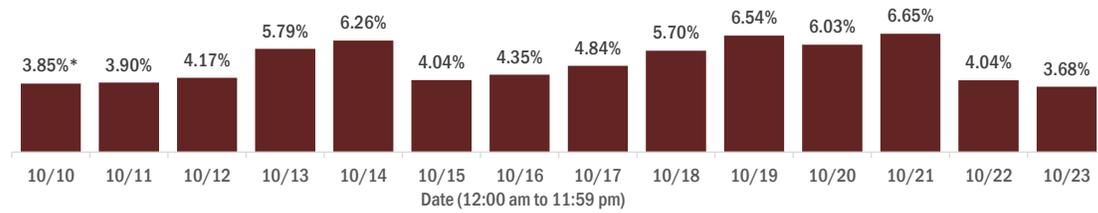

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

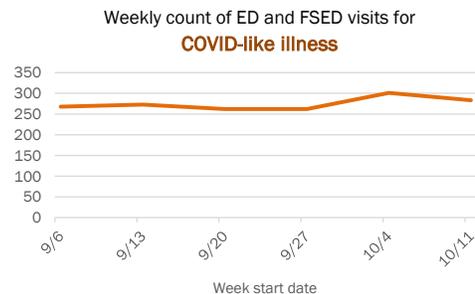

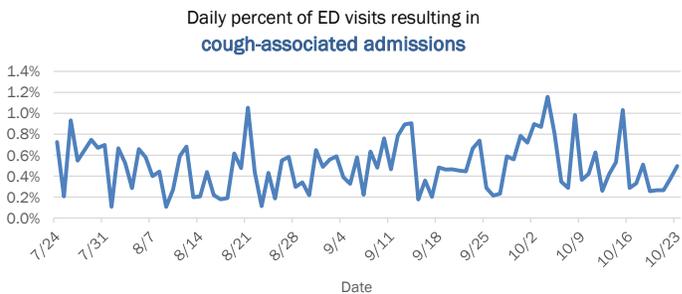

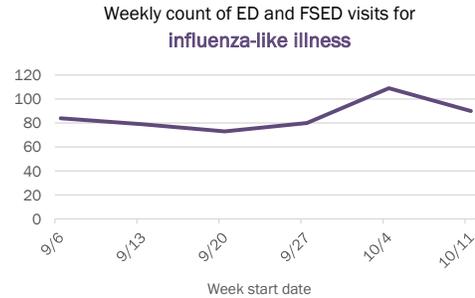

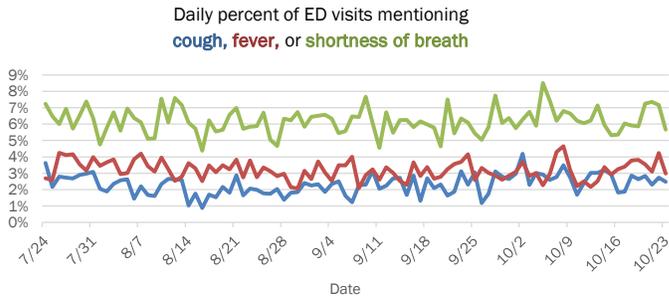

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 5.08%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Gadsden County

## Laboratory testing for Florida residents over the past 2 weeks

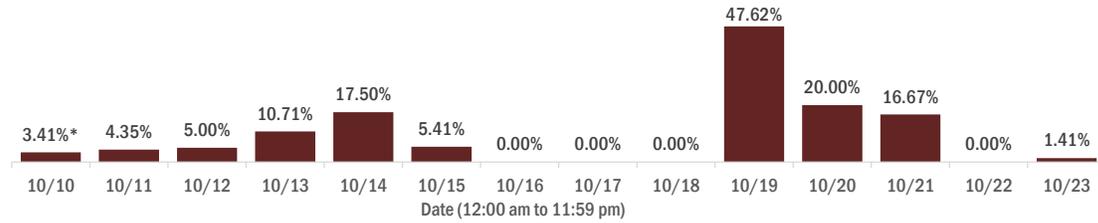

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

### Percent positivity for new cases in Florida residents

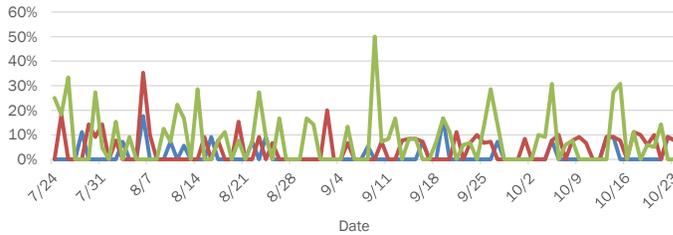

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 10.00%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Hardee County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

# COVID-19: summary for Lee County

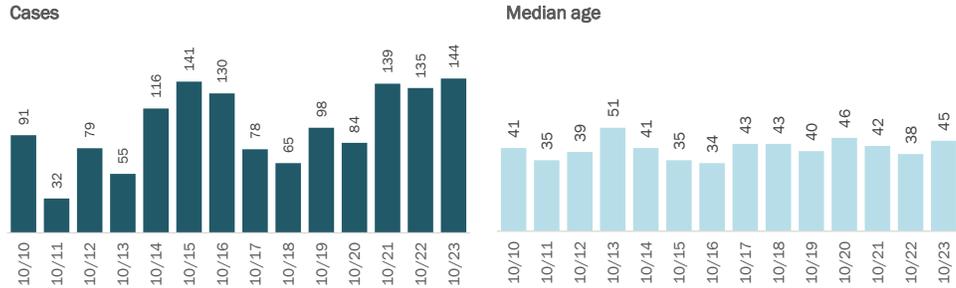

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

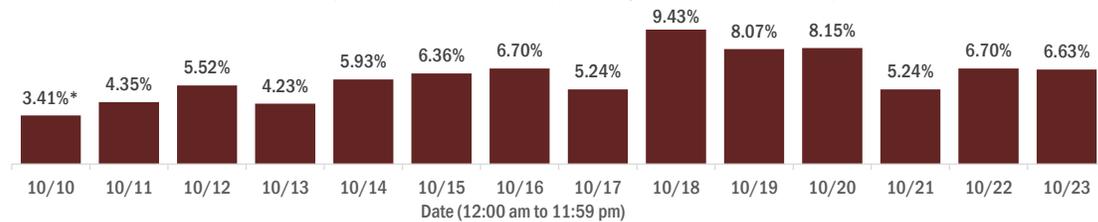

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

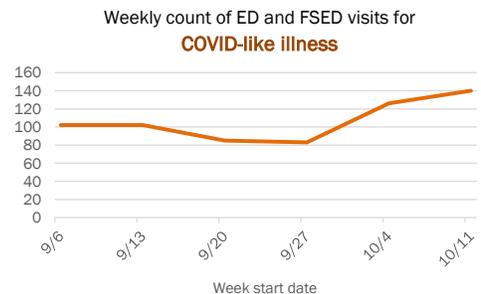

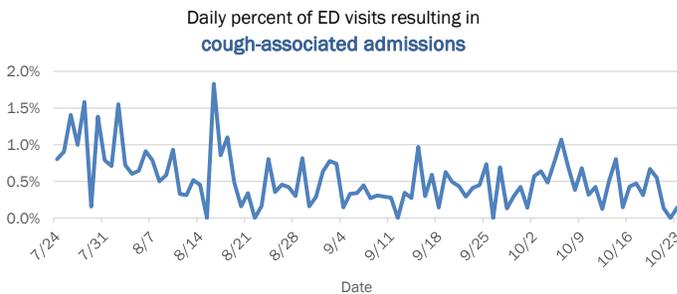

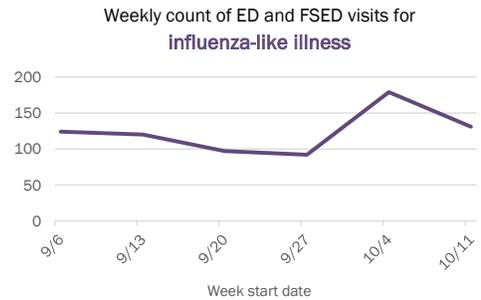

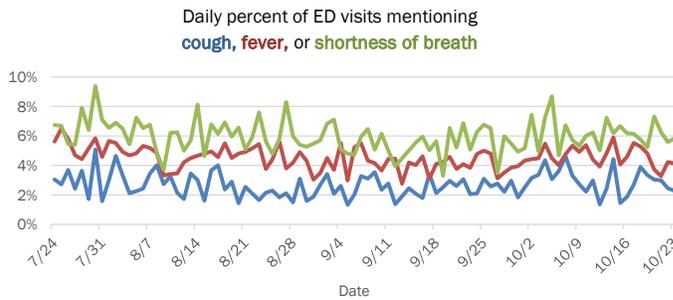

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 4.39%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Lee County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

## Laboratory testing for Florida residents over the past 2 weeks

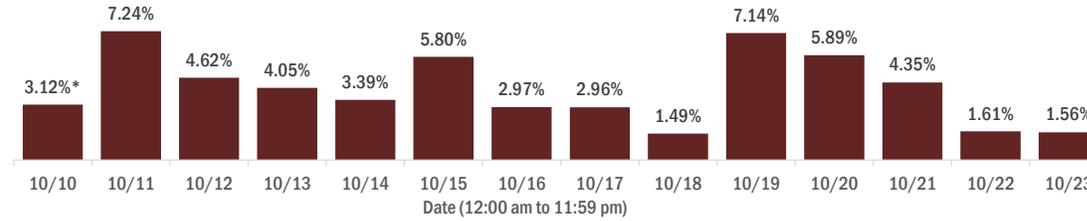

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

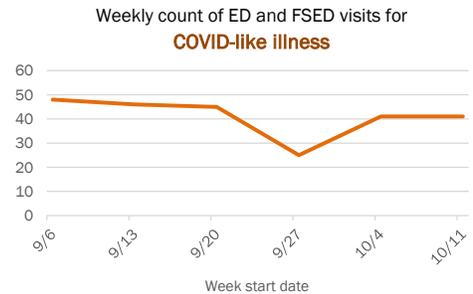

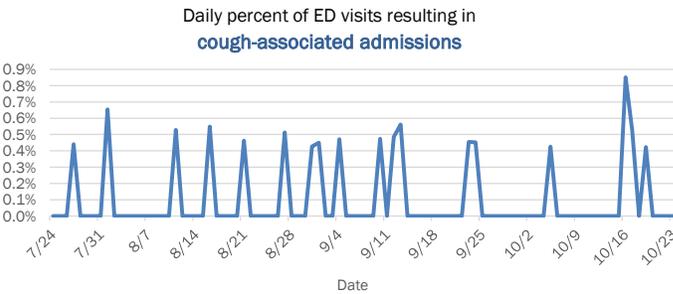

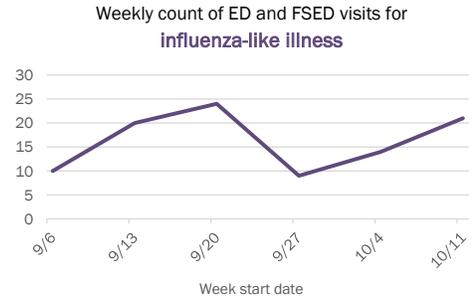

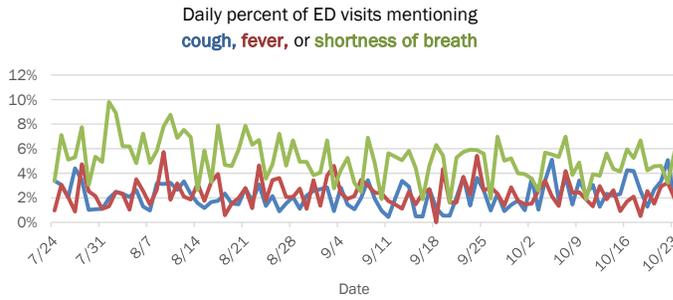

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 4.32%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Manatee County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

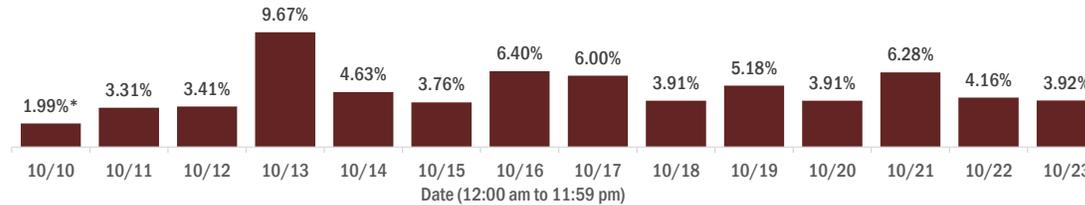

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

### Percent positivity for new cases in Florida residents

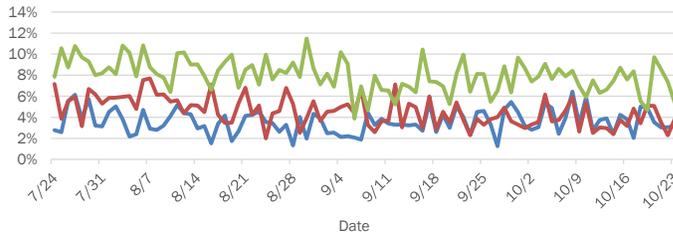

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 3.40%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Okeechobee County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

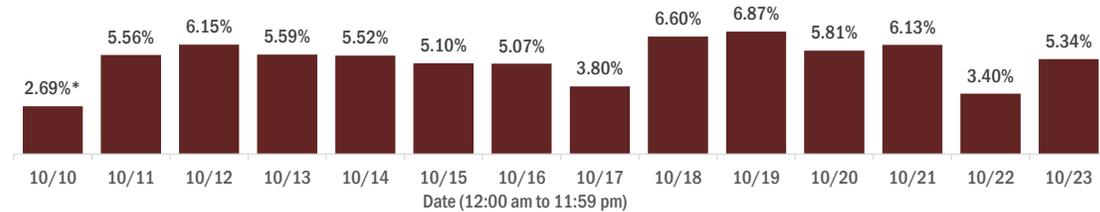

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

### Percent positivity for new cases in Florida residents

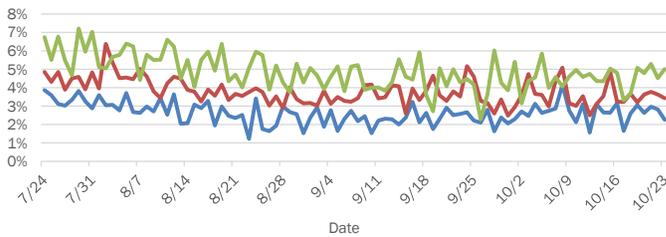

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 4.31%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Pinellas County

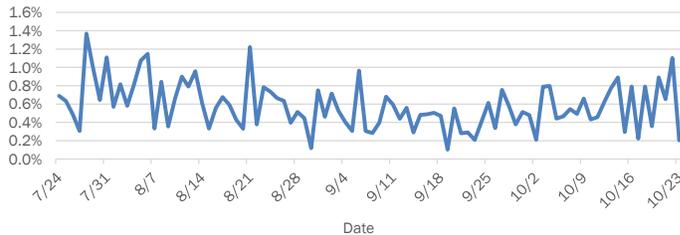

Daily percent of ED visits mentioning cough, fever, or shortness of breath

Weekly count of ED and FSED visits for influenza-like illness

Daily percent of ED visits resulting in cough-associated admissions

Weekly count of ED and FSED visits for COVID-like illness

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Data through Oct 23, 2020 verified as of Oct 24, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Laboratory testing for Florida residents over the past 2 weeks

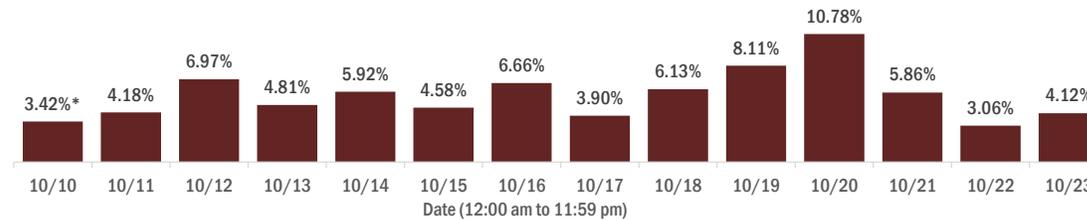

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

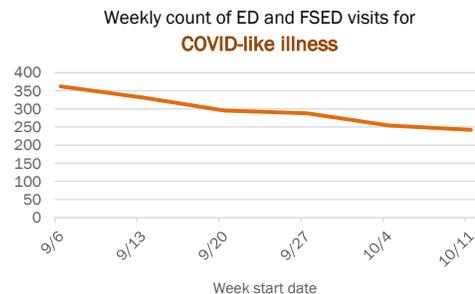

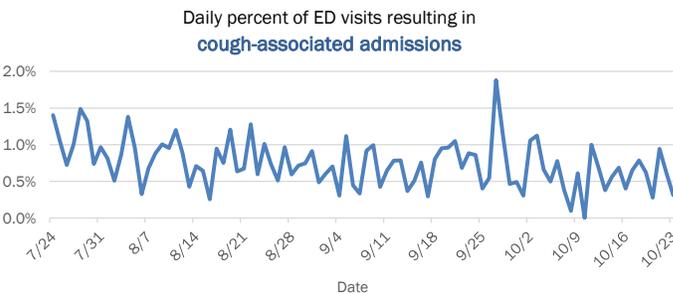

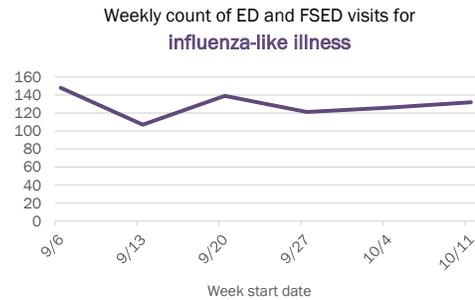

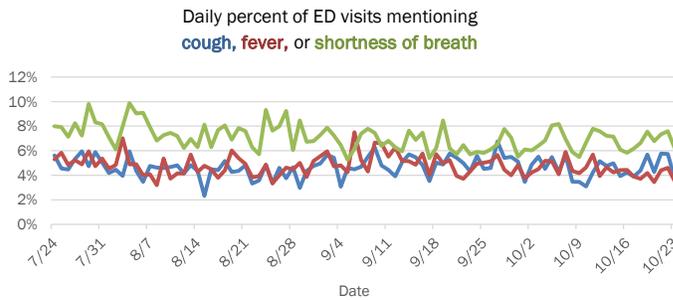

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 3.07%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Seminole County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

## Laboratory testing for Florida residents over the past 2 weeks

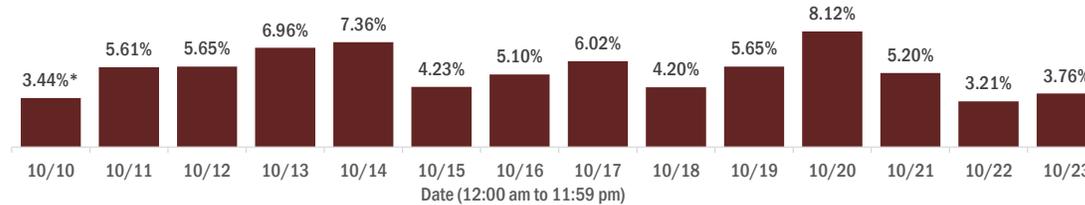

### Number of Florida residents who tested negative per day

These counts include the number of people for whom the Department received negative PCR or antigen laboratory results by day. People who tested negative on multiple days will be included once for each day they are tested. Negative results for persons who have previously tested positive are excluded.

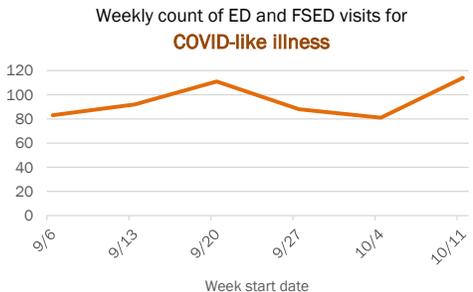

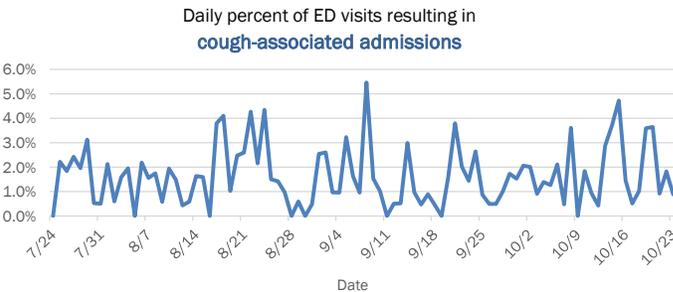

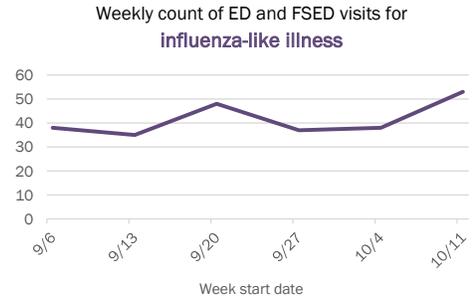

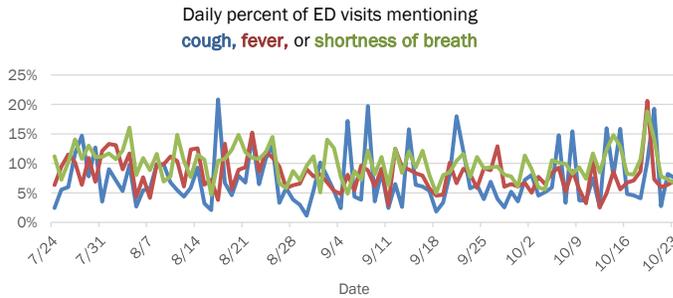

### Percent positivity for new cases in Florida residents

These counts include the number of Florida residents for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

\* A data dump of previously reported lab results prevented the reporting system from normal processing of lab results on Oct 9, causing an inaccurate representation of data for Oct 9 and 10. The most accurate way to interpret percent positivity for these 2 days is as a 2-day average, which was 11.50%

## Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Union County

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs and 86 of 88 Florida FSEDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.
